1. Executive Summary

Apivexo is a full-featured, multi-language online gaming platform designed for the South Asian market, with primary support for Bangladesh (BDT) and India (INR). The client application is a modern, responsive web platform built on Next.js 16 and React 19, delivering a premium casino, sports betting, and entertainment experience accessible from desktop and mobile browsers.

Key Deliverables Completed

- **Complete user registration and authentication** with device fingerprinting, session management, and password recovery.
- **Multi-category gaming lobbies** covering Sports, Live Casino, Slots, Crash, Table, Fishing, Arcade, Lottery, and Exclusive games.
- **Integrated wallet system** with quick deposit via bKash, Nagad, and Rocket, plus withdrawal to saved payout wallets.
- **Comprehensive Member Center** with profile management, KYC verification, betting records, and transaction history.
- **Reward Center ecosystem** including daily sign-in, bonus offers, rescue funds, missions, rebates, and spin wheel promotions.
- **Referral program** with public landing page, member dashboard, QR sharing, and registration integration.
- **Real-time live chat support** via WebSocket connection with typing indicators and agent assignment.
- **Full trilingual support** in English, Bengali, and Hindi with country-specific currency handling.
- **Mobile-optimized experience** with bottom navigation, PWA install prompt, and Android APK distribution.

Scope Note: This document covers exclusively the end-user web client application. Administrative dashboards, advertiser portals, and server-side infrastructure are outside the scope of this report.

2. Platform Architecture Overview

Technology Stack

Next.js 16 (App Router)

React 19

TypeScript

Tailwind CSS 4

Socket.IO Client

FingerprintJS

Application Structure

The Apivexo client follows a locale-first routing architecture. All user-facing pages are prefixed with a language code (`/en`, `/bn`, `/hi`), enabling seamless multilingual navigation without separate deployments.

Route Group	Access Level	Description
<code>/(site)</code>	Public	Home page, game lobbies, promotions, VIP, referral landing
<code>/(auth)</code>	Public	Login, registration, forgot password
<code>/member/*</code>	Authenticated	Member center, wallet, rewards, profile, records (auth-guarded)
<code>/api/*</code>	Internal	Game launch proxy and backend API gateway

Core Design Principles

- **Mobile-first responsive design** — Optimized for smartphones with dedicated bottom navigation and touch-friendly controls.
- **Server-side rendering** — Game lobbies and public pages are server-rendered for SEO and fast initial load.
- **Secure session management** — JWT-based authentication with automatic session expiry and balance synchronization.
- **Modular component architecture** — Feature domains are isolated into reusable component libraries with dedicated API layers.
- **Localized content catalogs** — 31 dedicated translation modules ensure consistent multilingual UX across all features.

3. Application Shell & Navigation

Application Shell LIVE

The master layout wrapping all site pages, providing a consistent frame across the entire platform. Includes sidebar navigation, top navigation bar, site footer, mobile bottom navigation, toast notifications, game play gate, and game return handler for seamless session continuity.

Components: AppShell, TopNavbar, SideNavigation, SiteFooter, MobileBottomNav, ToastProvider

Desktop Sidebar Navigation LIVE

Collapsible left navigation rail providing access to all game categories with expandable sub-menus for provider filtering. Includes secondary links to VIP Club, Referral Program, Affiliate Portal, App Download, and Contact options. Features a sponsor promotion banner and rotating promotion slider when expanded.

Categories: Exclusive, Sports, Casino, Slots, Crash, Table, Fishing, Arcade, Lottery, Promotions

Top Navigation Bar LIVE

Persistent header displaying the Apivexo logo, quick-access links to Sports, Slots, and Casino, language/currency switcher, and authentication controls. Logged-in users see a wallet balance bar with hide/show toggle, refresh action, and profile dropdown menu.

Components: TopNavbar, LoggedInWalletBar, ProfileDropdown, LocaleMenuButton

Mobile Bottom Navigation LIVE

Fixed bottom navigation bar visible on mobile devices, providing one-tap access to Menu, Slots, Promotions, Member Center, and a profile sheet with wallet summary and account shortcuts.

Components: MobileBottomNav, ProfileMobileSheet, ProfileMenuPanel

Profile Menu & Wallet Display LIVE

Accessible from the top navigation (desktop) or bottom navigation (mobile), the profile menu displays member ID with copy functionality, real-time wallet balance with privacy toggle, VIP points, and quick links to all member center sections. Supports logout with session cleanup.

Components: ProfileDropdown, ProfileWalletSection, ProfileMenuIcons

Currency & Language Modal LIVE

Settings modal allowing users to switch between Bangladesh (BDT) and India (INR) regions, and select interface language (English, Bengali, Hindi). Preferences are persisted via cookies and applied across the entire application.

4. Authentication & Account Security

User Login LIVE

Secure username and password authentication with device fingerprint collection for fraud prevention. Supports redirect to intended destination via `?next=` URL parameter. Handles forced password change flows and displays localized error messages.

Route: `/[locale]/login`

Three-Step Registration LIVE

Guided registration wizard: Step 1 — phone number with country-specific formatting (BDT/INR); Step 2 — username selection; Step 3 — password creation with strength validation. Supports referral code capture from URL parameters, device registration limit enforcement, and automatic login upon successful signup.

Route: `/[locale]/register` · **Referral param:** `?refld=` or `?ref=`

Forgot Password LIVE

Self-service password recovery requiring username, registered phone number, and new password with validation rules. Submits reset request to the backend API for verification and update.

Route: `/[locale]/forgot-password`

Change Password LIVE

Authenticated password change with real-time validation enforcing minimum length, uppercase letter, numeric digit, and special character requirements. Accessible from the Security Center in Member Center.

Route: `/member/login-security/change-password`

Session Management LIVE

JWT-based session stored securely in browser local storage with automatic expiry detection, balance synchronization with server revision tracking, account status validation (active/restricted), and auth guard protection on all member-area routes.

Personal Information Management LIVE

Tabbed profile hub for managing full legal name, date of birth, phone number, and email address. Phone and email updates include OTP verification flows. Privacy notice displayed on all personal information pages.

Routes: /member/personal-info/* (full-legal-name, date-of-birth, phone, email + verify pages)

KYC Document Verification LIVE

Identity verification module allowing users to upload government-issued documents for account verification. Supports document type selection and secure file upload to the backend KYC service.

Route: /member/verification/documents

Account Status Enforcement LIVE

Platform-wide account restriction system that blocks game play, withdrawals, and other sensitive actions based on account status (active, suspended, restricted). Displays localized restriction messages explaining the limitation to the user.

5. Home Page & Discovery

Hero Carousel LIVE

Full-width promotional banner carousel on the home page showcasing featured promotions, new games, and platform highlights. Auto-rotates with manual navigation controls.

Announcement Bar LIVE

Scrolling ticker bar displaying platform announcements, maintenance notices, and promotional messages at the top of the home page.

Game Category Tabs LIVE

Interactive tabbed interface on the home page with categories: Popular, Sports, Casino, Slots, Crash, Table, Fishing, Arcade, and Lottery. The Popular tab displays a curated game grid; other tabs show provider shortcuts linking to filtered lobby pages.

Provider Showcase LIVE

Grid of game provider logos on the home page, each linking to the corresponding vendor-filtered game lobby. Showcases partnerships with Evolution, Pragmatic Play, JDB, PG Soft, Jili, Spribe, and other leading providers.

Exclusive Games Section LIVE

Curated carousel of Apivexo-exclusive game titles, prominently featured on the home page and accessible via a dedicated Exclusive games lobby.

Events Section LIVE

Promotional events block highlighting time-limited tournaments, seasonal campaigns, and special platform events with visual cards and call-to-action links.

Home Engagement Modals LIVE

Smart modal system on the home page including: promotional slider (once per day dismiss), daily spin wheel for authenticated users, and mobile app download prompt. Each modal respects session-based dismissal to avoid user fatigue.

Floating Live Chat Button LIVE

Persistent floating action button on the home page providing quick access to customer support live chat without navigating away from the current page.

6. Gaming & Casino Modules

Apivexo provides nine distinct game category lobbies, each with provider filtering, game type filtering, sorting, and paginated game grids. All lobbies share a unified game card interface and integrated launch system.

Category	Route	Key Providers	Description
Exclusive	/exclusive	Apivexo Originals	Platform-exclusive curated game titles
Sports	/sports	Cricket, FB Sports, BTI Tennis	Sports betting with cricket, football, and tennis markets
Live Casino	/casino	Evolution, Pragmatic, Sexy Gaming	Live dealer games — baccarat, roulette, blackjack, game shows
Slots	/slot	JDB, PG Soft, Jili	Video slot games with diverse themes and mechanics
Crash	/crash	Aviator, Spribe	Crash/multiplier games with real-time betting
Table Games	/table	Multiple vendors	Digital table games — baccarat, roulette, poker variants
Fishing	/fishing	JDB, Jili	Arcade-style fishing and shooter games
Arcade	/arcade	JDB, FaChai, Pragmatic, Rich88, Hacksaw	Casual arcade and instant-win games
Lottery	/lottery	TC, King Midas	Lottery and number-draw products

Game Lobby Features

- **Vendor filtering** — Filter games by provider via URL parameter (?vendor=) or sidebar sub-navigation.
- **Game type filtering** — Additional type filters within categories (?type=).
- **Sorting & pagination** — Server-side paginated game grids with sort options.
- **Provider filter sheet** — Mobile-optimized bottom sheet for provider selection on smaller screens.
- **Category header menu** — Quick navigation between game categories from within any lobby.

Game Launch System

Game Play Gate LIVE

Comprehensive pre-launch validation system triggered when a user clicks any game card:

- Authentication check — prompts login modal for unauthenticated users
- Zero-balance block — prevents launch when wallet balance is insufficient
- Account restriction check — blocks play for restricted/suspended accounts
- Balance preview — displays current balance before launch confirmation
- Eligibility API validation — server-side check for game access permissions
- Launch overlay — loading state during game initialization
- Platform detection — sends mobile (platform=2) or desktop (platform=1) flag to game provider
- Return handler — automatic balance refresh and vendor transaction sync when returning from a game

7. Wallet, Deposits & Withdrawals

Real-Time Wallet Balance LIVE

Live wallet balance display in the top navigation bar and member center with hide/show privacy toggle, manual refresh action, VIP points display, and local state synchronization with server revision tracking to prevent stale balance display.

Deposit Hub LIVE

Central deposit method selection screen. Currently active: Quick Deposit (mobile financial services). Additional methods (E-wallet, Cryptocurrency, Local Bank Transfer) are architecturally prepared for future activation.

Route: /member/deposit

Quick Deposit LIVE

Streamlined deposit flow for Bangladesh mobile financial services. Users select payment method (bKash, Nagad, or Rocket), choose a payment channel/account, enter deposit amount, optionally select a deposit promotion/bonus, preview bonus calculation, and proceed to payment verification.

Route: /member/deposit/quick · **Methods:** bKash, Nagad, Rocket

Deposit Payment Verification LIVE

Payment instruction page displaying the assigned payment account details with copy-to-clipboard functionality. Features countdown timers (10-minute payment window, 3-minute verification window), transaction ID submission, automatic payment verification polling, manual deposit fallback, duplicate transaction ID detection, and bonus confirmation messaging.

Route: /member/deposit/quick/verify

Deposit Promotion Picker LIVE

Integrated bonus selection during the deposit flow. Users can choose from available deposit promotions and see a real-time preview of the bonus amount before confirming the deposit.

Withdrawal LIVE

Withdrawal submission form allowing users to select a saved payout wallet (bKash, Nagad, Rocket), enter withdrawal amount (minimum 100), and submit the request. Includes account status validation, insufficient balance checks, and redirect to add-wallet page if no payout wallets are configured.

Route: /member/withdraw

Payout Wallet Management LIVE

Add and manage payout wallets for withdrawals. Users can register wallets with holder name and account number for bKash, Nagad, and Rocket. Supports adding up to the maximum allowed wallets and deleting existing ones.

Route: /member/add-wallet

Transaction Records LIVE

Comprehensive transaction history with filtering by status, payment type, and date range. Separate views for deposit records, withdrawal records, and general account records. Includes detail modals for individual transaction inspection.

Route: /member/transaction-records

8. Member Center

The Member Center serves as the authenticated user's command hub, providing centralized access to all account management, financial, and engagement features through a 16-item action grid.

Member Center Dashboard LIVE

Central hub displaying user avatar, nickname, member ID, join date, real-time balance with refresh, VIP badge/medal, sign-in reward shortcut, and a 16-item action grid. Badge counts highlight available rewards and active missions. Includes logout functionality.

Route: /member

Module	Status	Route	Description
Reward Center	Live	/member/reward-center	Hub for all reward programs and claimable offers
Betting Records	Live	/member/betting-records	Tabbed bet history with settled/unsettled filters
Profit & Loss	Live	/member/profit-and-loss	Personal P&L report by game category and date range
Deposit Record	Live	/member/transaction-records	Filtered deposit transaction history
Withdrawal Record	Live	/member/transaction-records	Filtered withdrawal transaction history
Account Record	Live	/member/transaction-records	General account transaction history
My Account	Live	/member/personal-info	Personal information management hub
Security Center	Live	/member/login-security	Password change and security settings
Invite Friends	Live	/member/my-referral	Personal referral dashboard with sharing tools
Mission	Live	/member/mission	Active missions with rewards and countdown timers
Rebate	Live	/member/rebate	Daily rebate claim and history
Internal Message	Live	/member/notification	Inbox with read/delete management
Suggestion	Live	/member/suggestion	Feedback submission with image upload
Download App	Live	Direct APK	Android application download
Customer Service	Live	/member/live-chat	Real-time support chat
My VIP	Planned	/member/my-vip	Member VIP dashboard (placeholder — public VIP page live)

Turnover / Wagering Requirements LIVE

Displays active turnover progress bars for each bonus or promotion requiring wagering completion. Automatically refreshes when the user returns from a game session.

Route: /member/turnover

9. Reward Center & Loyalty Programs

Reward Center Hub LIVE

Central rewards dashboard with branded header, user card showing balance and VIP tier, and navigable tiles for all reward programs. Available-count badges highlight claimable rewards across programs.

Route: /member/reward-center

Daily Sign-In Rewards LIVE

Calendar-style daily check-in system with visual reward envelopes. Tracks consecutive sign-in streaks, displays claimable rewards, and integrates with the sign-in reward API for balance crediting upon claim.

Route: /member/reward-center/sign-in

Bonus Offers LIVE

List of claimable bonus vouchers with eligibility criteria, expiry dates, countdown timers, and one-tap claim actions. Displays bonus terms and credited amounts upon successful claim.

Route: /member/reward-center/bonus

Rescue Fund Programs LIVE

Multi-program rescue fund hub offering financial recovery incentives for players. Includes Sports Cashback (returns on sports betting losses) and Loss Compensation (general loss recovery programs) as sub-programs with individual claim flows.

Routes: /member/reward-center/rescue-fund, /sports, /loss-compensation

Temu Ticket Promotion LIVE

Gamified ticket and coupon mechanic inspired by social commerce promotions. Users collect tickets through platform activity, share referral links to earn additional tickets, claim rewards, and view complete claim history.

Routes: /member/reward-center/temu-ticket, /history

Daily Spin Wheel LIVE

Animated prize wheel modal auto-displayed on the home page for authenticated users with available spins. Features spinning animation, countdown timer for next spin availability, winner ticker display, and automatic balance refresh upon winning.

Member Missions LIVE

Mission system with tabbed views (Active, Upcoming, Closed, Coming Soon). Each mission displays objectives, countdown timers, medal reward icons, and claim actions. Available mission count shown as badge on Member Center grid.

Route: /member/mission

Rebate (Cashback) LIVE

Dual-tab rebate system: Manual Rebate tab for daily cashback claims, and Rebate History tab with date range filtering and expandable detail sheets showing per-game rebate breakdowns.

Route: /member/rebate

10. Promotions & Marketing

Promotions Catalog Page LIVE

Public-facing promotions page fetching live promotion data from the API. Features filter tabs (All, Welcome, Cashback), a featured promotion hero banner, and a grid of promotion cards with details and terms.

Route: /[locale]/promotion

Home Promotional Modal LIVE

Auto-displaying promotional slider modal on the home page, shown once per day per user (sessionStorage-based dismissal). Showcases current campaigns with image carousel and CTA links.

Sidebar Promotion Slider LIVE

Rotating promotion cards displayed in the expanded desktop sidebar, providing persistent visibility of active campaigns during navigation.

Deposit-Linked Promotions LIVE

Promotion selection integrated directly into the deposit flow, allowing users to activate deposit bonuses at the point of funding with real-time bonus amount preview.

11. Referral & Affiliate Program

Public Referral Landing Page LIVE

Marketing page promoting the Apivexo referral program. Includes hero banner, three-step how-it-works guide, reward level tier display, top ranks leaderboard, recent winners feed, range statistics carousel, detailed rules modal, and registration call-to-action.

Route: `/[locale]/referral`

My Referral Dashboard LIVE

Authenticated member referral dashboard displaying personal referral ID, shareable referral link, QR code for easy sharing, copy and native share actions, referral statistics, list of referred users, monthly milestone progress tracker, reward level information, and rules modal.

Route: `/member/my-referral`

Registration Referral Integration LIVE

Referral codes are automatically captured from URL parameters (`?refId=` or `?ref=`) during the registration flow and submitted to the backend API to establish the referral relationship.

Affiliate Portal Link LIVE

External link to the dedicated affiliate partner portal accessible from the sidebar navigation, enabling advanced affiliate partners to manage their programs separately.

12. VIP Club

VIP Club Public Page LIVE

Marketing page showcasing VIP Club benefits including enhanced cashback rates, dedicated account manager, faster withdrawal processing, birthday bonus, exclusive promotions, and priority support. Features hero artwork, benefit cards with icons, and a "Join Now" call-to-action.

Route: /[locale]/vip

VIP Points Display LIVE

VIP loyalty points are displayed in the profile wallet section and logged-in wallet bar, providing constant visibility of the user's VIP progression.

VIP Badge in Member Center LIVE

Visual VIP tier indicators including silver badge watermark and VIP medal icon displayed on the Member Center header, reinforcing the user's VIP status.

13. Records, Reports & Analytics

Betting Records LIVE

Comprehensive bet history with tabbed views for settled and unsettled bets. Features date range filtering, expandable bet detail rows, pagination, and result badges (Won, Lost, Pending).

Route: /member/betting-records

Profit & Loss Report LIVE

Personal financial report broken down by game category (Sports, Casino, Slots, etc.) with date presets (Today, Yesterday, Last 7 Days) and custom date range selection via a mobile-friendly date picker sheet.

Route: /member/profit-and-loss

Transaction Records LIVE

Filterable transaction history supporting status, payment type, and date range filters with detail modals for individual transaction inspection.

Route: /member/transaction-records

Turnover Tracking LIVE

Active wagering requirement tracker showing progress bars for each bonus or promotion with outstanding turnover obligations.

Route: /member/turnover

14. Customer Support

Live Chat Support LIVE

Real-time customer support chat powered by WebSocket connection. Features typing indicators, agent assignment status display, message history, and automatic redirect to login for unauthenticated users. Accessible from Member Center, sidebar contact menu, and floating button on the home page.

Route: /member/live-chat · **Technology:** Socket.IO

Suggestion / Feedback LIVE

Structured feedback submission form with category selection, message text area, optional image upload, captcha verification, and API submission for platform improvement suggestions.

Route: /member/suggestion

Internal Messages / Notifications LIVE

In-platform messaging inbox with select-all, mark-as-read, and delete functionality for platform announcements and personal notifications.

Route: /member/notification

Contact Options LIVE

Sidebar contact dropdown providing access to Live Chat, Email support, and Telegram channel for multi-channel customer communication.

15. Internationalization & Localization

Multi-Language Support LIVE

Full trilingual platform supporting English, Bengali (Bangla), and Hindi. URL-based locale routing (/en/, /bn/, /hi/) with Bengali as the default locale. 31 dedicated translation modules covering every feature area.

Multi-Currency Support LIVE

Country-specific currency handling: Bangladesh (BDT — Bangladeshi Taka) and India (INR — Indian Rupee). Currency affects phone number formatting during registration, balance display formatting, and deposit/withdrawal flows.

Locale-Aware Typography LIVE

Font selection adapts to the active locale, ensuring proper rendering of Bengali and Devanagari (Hindi) scripts alongside Latin characters.

16. Mobile Experience & App Distribution

Mobile-First Responsive Design LIVE

Entire platform optimized for mobile devices with responsive breakpoints, sidebar-to-overlay transformation, dedicated bottom navigation bar, safe-area-inset padding for notched devices, and touch-target sizing standards (minimum 44px touch targets).

App-Like Mobile Experience LIVE

Pinch-zoom and double-tap zoom disabled on mobile for native app-like feel. Mobile filter sheets replace desktop dropdowns for game lobby filtering.

Android APK Distribution LIVE

Direct Android APK download available from Member Center grid and sidebar navigation. Mobile home page displays an app download prompt (bottom sheet) encouraging APK installation.

PWA Install Support LIVE

Progressive Web App install prompt on mobile browsers, enabling users to add Apivexo to their home screen for quick access without app store distribution.

Mobile Game Launch LIVE

Automatic platform detection sends the appropriate platform flag (mobile vs. desktop) to game providers during launch, ensuring games render in mobile-optimized mode.

17. SEO & Compliance

Search Engine Optimization LIVE

Per-locale metadata generation, JSON-LD structured data on the home page, XML sitemap covering home, VIP, referral, and promotion pages across all locales, and robots.txt configuration.

Site Footer & Legal Content LIVE

Localized footer on the home page including about text, social media links, accepted payment method icons, responsible gaming notice, and copyright information.

Device Fingerprinting LIVE

FingerprintJS integration for device identification during login and registration, supporting fraud prevention and device registration limit enforcement.

18. Feature Implementation Summary

Implementation Status Overview

Feature Area	Modules	Status	Completion
Application Shell & Navigation	6	Live	100%
Authentication & Security	8	Live	100%
Home Page & Discovery	8	Live	100%
Gaming & Casino (9 categories)	10	Live	100%
Wallet & Payments	7	Live	100%
